

PLANT BINGO

NEW MEXICO

PLANT BINGO

Take plant bingo and some coloring materials on your next walk or hike and color in plants as you find them! For each plant, record where you found it (i.e. in the Sandia mountains, the Bosque, your neighborhood, etc.) and anything you notice about it (What size is it? Does it have leaves? Thorns? Does it grow in a specific environment?)
You win once you color and record observations for three boxes in a row!
