

## Intro to Micro:bits

A workshop for educators, librarians, and OST staff

Want to get into computer science and coding? In this workshop, you will learn how to use simple, common materials with micro:bit microcontrollers in creative ways. This an introduction with no previous coding experience required!

Participants are eligible to receive a classroom visit on micro:bit activities for their students.

Saturday, January 20, 10 am - 12 pm  
At Explora
